

As a medium-sized mechanical engineering company with approximately 30 employees, we manufacture products for the packaging industry. We have been in the business for over 25 years and enjoy a remarkable position as an innovation leader on an international level.

To support our team, we are looking for a committed and experienced personality, to commence immediately or by agreement:

Automation Engineer / Service Technician

YOUR TASKS

- Mechanical, pneumatic, hydraulic and electrical pre- and final-assembly of machines, which are being built by means of CAD-drawings, assembly instructions and wiring diagrams
- Testing of systems in accordance to test protocol
- Guiding and accompanying machine-acceptance inspections by customers

YOUR PROFILE

- Successfully completed apprenticeship / training as automation engineer or polytechnician
- Good command of English
- Open, communicative personality with systematic, independent and quality-conscious working methods and the ability to keep track in hectic situations

YOUR POSSIBILITIES

- After an extensive training period, one to two weeks of commissioning and servicing may be carried out per year
- Further training on programmable IPC-controllers possible and desired

Would you like to join our team? Then we look forward to receiving your written application by post or e-mail.
