

As a medium-sized mechanical engineering company with approximately 30 employees, we manufacture products for the packaging industry. We have been in the business for over 25 years and enjoy a remarkable position as an innovation leader on an international level.

To support our team, we are looking for a committed and experienced personality, to commence immediately or by agreement:

LPC Control Engineer (m/f)

YOUR TASKS

- Active participation in PLC software development projects on code basis Beckhoff TwinCAT-3
- Software Development Web Visualization
- Commissioning / function control of the complete system according to test protocol

YOUR PROFILE

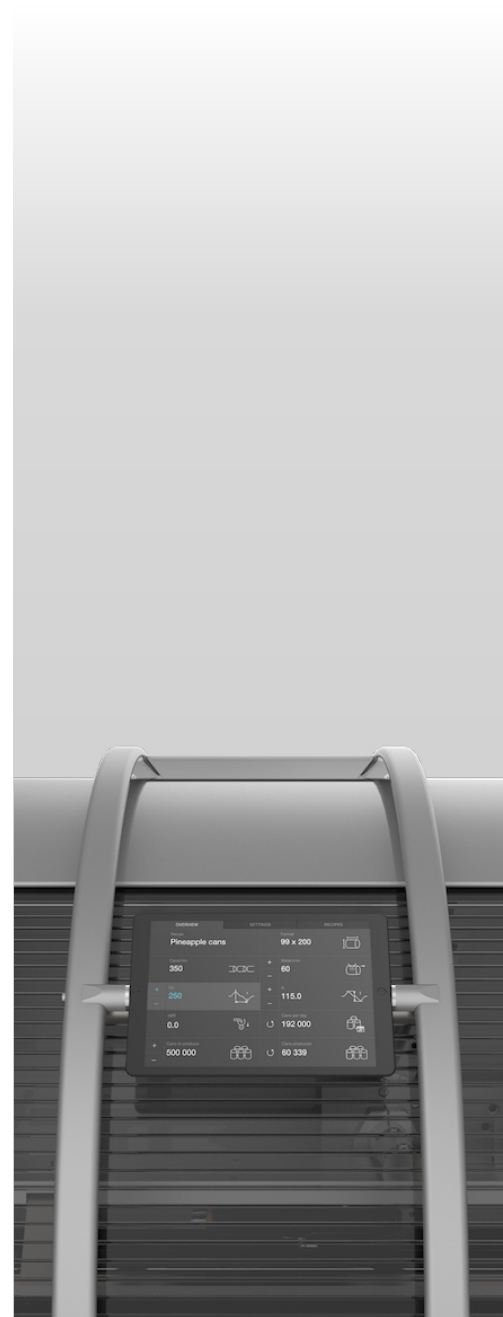

- Successfully completed training as an Automation Technician EFZ (or comparable), with further training HF or FH in the fields of automation or electrical engineering
- Knowledge of PLC programming, according to IEC 61131 ST for Beckhoff systems (TC3)
- Good command of English
- Open, communicative personality with systematic, independent and quality-conscious working methods and the ability to keep track in hectic situations

Would you like to join our team? We are looking forward to receiving your written application by post or e-mail.
